EXPERIENCE

Portfolio (Under Development)
Link
Uses foundational and advanced HTML, SASS, PHP, MySQL, and JavaScript for login, comment posting, and listing full-stack skills. Desktop layout and some functions are under development (best viewed in mobile view).

Static Restaurant Menu Site
Link
Made with HTML and SASS. Showcases front-end web development skills and key features of a static web page such as responsive web design, user interface, and user experience.

React Blog Site
Link
Demonstrates React framework knowledge. Combines HTML, CSS, and JavaScript to form a fully functioning blogging app.

Weather Search API
Link
Uses the OpenWeather JavaScript API and takes a city name inputted by the user and returns the weather in that location.

Sticky Note App
Link
Vanilla JavaScript app that generates sticky notes which can be deleted upon double clicking. Uses foundational knowledge of HTML, CSS, and JavaScript to create a fully functioning application.
